

All your health care facts **UNITED AT LAST**

What are myHealthButton/myHealthPortal?

myHealthButton and myHealthPortal are applications created by the State of Michigan to put your health care benefits directly in your hands by providing real-time use, instantly and securely. myHealthButton is a mobile app that can be used from a smartphone or tablet. myHealthPortal is a website that can be used from any computer or phone browser with available internet.

myHealthButton/myHealthPortal features

- Find a doctor
- Order a mihealth card
- View your healthcare benefits
- Track your healthy behaviors, like water intake, blood pressure and blood sugar levels
- View immunization records
- Complete a Health Risk Assessment (HRA)
- Review your recent health insurance claims
- View your primary care physician
- View your prior authorization requests
- View your inquiries, complaints, and letters from MDHHS

Why should you use myHealthButton/myHealthPortal?

myHealthButton and myHealthPortal applications allow you to view your Medicaid health information at your convenience. myHealthButton and myHealthPortal applications allow you to do things without having to call the Medicaid beneficiary hotline or contacting your case worker.

Who can use myHealthButton/myHealthPortal?

If you or your child are enrolled in **Medicaid, Healthy Michigan Plan, MIChild, or Children's Special Healthcare Services (CSHCS)**, you can use myHealthButton and myHealthPortal. You can register to access your health information and you can also link your child's information to your account. You must be an active Medicaid member to register for myHealthButton/myHealthPortal. If you already have access to the applications and you are no longer an active Medicaid member, you can still access the applications, however no new information will be displayed.

Where do you access the applications?

myHealthPortal can be accessed in your web browser and myHealthButton can be downloaded from the Apple or Google Play app stores. In order to set up your account, first, you will need to grant access to the applications through MI Login. Before downloading the myHealthButton application you will first need to register for myHealthPortal. For detailed instructions on how to register for and access the applications visit the [myHealthButton/myHealthPortal Resource Library \(URL: https://bit.ly/3AkGLGK\)](https://bit.ly/3AkGLGK)
