

QualityNet Secure Portal User Role Management Guide

For Eligible Hospitals and Critical Access Hospitals
Attesting to the Centers for Medicare & Medicaid Services
for the Electronic Health Record Incentive Program

January 2018

Overview

Starting in January 2018, Medicare eligible hospitals and critical access hospitals (CAHs) attesting to the Centers for Medicare & Medicaid Services (CMS) for the Electronic Health Record (EHR) Incentive Program will use **one system** to report attestations—the [QualityNet Secure Portal](#), also referred to as [QNet](#).

By transitioning to one system, CMS is streamlining data submission methods for eligible hospitals and CAHs attesting to CMS for the EHR Incentive Program. The goal is to make it easier for hospitals to report data to CMS. Instead of reporting clinical quality measures (CQMs) and meaningful use (MU) attestations in two separate systems, eligible hospitals and CAHs will be able to report this information through [QNet](#).

For more information about the transition, see the [EHR Hospital Transition Overview fact sheet](#).

Role Management in QNet

In order to attest to Medicare, users will need to be enrolled in QNet and have the correct roles assigned to their accounts. CMS has created the [QNet Enrollment User Guide](#) to help with the enrollment process. This guide is intended to assist with role management.

The new roles for the Web-Based Data Collection tool are:

- Inpatient Structural MSR DACA Read
 - Allows Read-only access to the Web-Based application
 - **This role is necessary to access the Web-Based application with read only rights**
- Inpatient Structural MSR DACA Update
 - Allows Read, Create, and Update access to the Web-Based application
 - **This role is necessary to access the Web-Based application with submission rights**
- MU Web-Based Read
 - Allows Read-only access to a facility's data for Providers and Top Level Administrators
 - **This role is necessary to view attestation questions and data that have been submitted within the Web-Based application**
- MU Web-Based Update
 - Allows Read, Create, and Update access to a facility's data for Providers and Top Level Administrators
 - **This role is necessary to enter, modify, and submit attestation data within the Web-Based application**
 - Users with this role also have the ability to view questions and/or previously submitted answers
- MU Web-Based Submission Reports
 - Allows Providers and Top Level Administrators to view and run submission reports for a facility's data

The following steps outline how an Admin User can update another user from the same organization's role in the QNet Secure Portal. **Only an Admin User is able to add MU roles for a Provider User.**

Note: In order to update a user's role, they must first have a QNet account.

1. Navigate to <https://www.qualitynet.org>. The QNet home page appears with a link to the Secure QNet Portal in the upper-right corner of the page. Choose “Log in” to be taken to a two-factor login page.

The screenshot shows the QualityNet website interface. At the top, there is a search bar and a 'Log in to QualityNet Secure Portal (formerly MyQualityNet)' link. Below the navigation tabs, a menu lists various facility types. The main content area is divided into several sections:

- QualityNet Registration:** Lists options for Hospitals - Inpatient, Hospitals - Outpatient, Physician Offices, ASCs, Cancer Hospitals, ESRD Facilities, Inpatient Psychiatric Facilities, and QIOs.
- Getting Started with QualityNet:** Includes links for Registration, Sign-In Instructions, Security Statement, Password Rules, and QualityNet System Security Policy, PDF.
- Join ListServes:** Sign up for Notifications and Discussions.
- Known Issues - Hospital Reporting:** Lists issues for Inpatient, EHR Incentive Program, Hospital Value-Based Purchasing (VBP), Outpatient, and Ambulatory Surgical Centers.
- QualityNet News:** Features a news article titled "CMS grants exemptions for Quality Program participants in FEMA disaster areas in Texas and Louisiana affected by Hurricane Harvey". The article text states: "The Centers for Medicare & Medicaid Services (CMS) is granting exceptions under certain Medicare quality reporting and value-based purchasing programs to acute care hospitals, Prospective Payment System (PPS)-exempt cancer hospitals, inpatient psychiatric facilities, skilled nursing facilities, home health agencies, hospices, inpatient rehabilitation facilities, outpatient dialysis facilities, long-term care hospitals, and ambulatory surgical centers located in areas affected by Hurricane Harvey due to the devastating impact of the storm. These providers will be granted exceptions without having to submit an extraordinary circumstances exception (ECE) request if they are located in one of the Texas counties or Louisiana parishes that have been designated by the Federal Emergency Management Agency (FEMA) as a major disaster county or parish." It includes a 'Full Article >' link and a 'Headlines' section with multiple news items.
- Log in to QualityNet Secure Portal:** A button with a 'Login' link below it.
- Questions & Answers:** Lists facility types and includes a note: "Note: First-time registration required".
- Downloads:** Lists 'CART - Inpatient', 'CART - Outpatient', and 'CART Module Designer'.
- Training:** Lists 'QualityNet Training', 'QualityNet Event Center', and 'Secure Portal'.

2. After logging in as an Admin User, click on "Edit User" link.

Home>Quality Programs>Hospital Quality Reporting: IQR, OQR, ASCQR, IPFQR, PCHQR

Quality Reporting System: My Tasks

User Role Management Create User Approve User Edit User Reactivate User Create Group Edit Group Create Exchange Group Edit Exchange Group	Hospital Reporting Inpatient / Outpatient View / Edit Population and Sampling
Manage Security In-Person Proofing Help Desk Assistant Manage Multifactor Credentials My Account	Manage Notice of Participation View/Edit Notice of Participation, Contacts, Campuses
Patient Satisfaction Data Entry Online Survey Entry	Vendor Authorization Authorize Vendors to Submit Data
EHR Incentive Program Hospital eCQM Reporting Denominator Declaration/QRDA File Deletion	Hospital Reporting External Files External Files Online Tool

Click on 'Edit User' link

3. On the “Select User to Edit” page:
 - Select your organization from the “Choose an Organization” menu
 - Select the User ID of the user whose role you want to edit
 - Click the “Add Selected User” button
 - Click “Edit Selected User” toward the bottom of the page.

The screenshot shows the 'Select User to Edit' page in the CMS QualityNet system. The page has a navigation bar with 'Home', 'Quality Programs', 'My Reports', and 'Help'. Below the navigation bar, the breadcrumb trail reads: 'Home > Quality Programs > Hospital Quality Reporting: IQR, OQR, ASCQR, PFQR, PCHQR > User Role Management > Edit User'.

The main content area is titled 'Select User to Edit' and contains the following elements:

- Choose an Organization:** A tree view on the left lists various organizations. 'Jasper Memorial Hospital - 111303' is selected, and a callout bubble points to it with the text 'Select Your Organization'.
- User List:** A list of users for the selected organization is shown on the right. 'Siddique, Reaz JASPER_PROVIDER' is selected, and a callout bubble points to it with the text 'Select the User ID, Then Click on 'Add Selected User''.
- Add Selected User:** A button located below the user list.
- Organization Type and Filter:** Below the organization list, there are dropdown menus for 'Select an organization type from the list: Provider' and 'Select a filter from the list: I-J', along with a 'Look up Group by ID' button.
- Selected User:** A section indicating 'No user selected'.
- Edit Actions:** A list of actions including 'Edit Selected User', 'Terminate Selected User', 'Reset Password for Selected User', 'View Selected User Summary', and 'Print Registration for Selected User'. A callout bubble points to the 'Edit Selected User' link with the text 'Click on 'Edit Selected User''.

- Once you click on the “Edit Selected User” link, the system will direct you to the “User Information” page. Click the “Continue” button to go to the the “User Systems Permissions” page, where you can edit a user’s role.
